

Microtec GC48-BSF

Cutting plotter

OPIS

It's with Servo Motor whose speed is 2 times higher than the stepper system. No noise during operation.

The auto-correction function will avoid the ripple during cutting. Unique double cutter position, double pressing strips for processing different kinds of material. Compatible with many computer operation systems such as Windows XP, Vista, Windows7 (32bit&64bit).

SPECIFIKACIJA

Model Item	GC-48
Max. paper width	1330mm
Max. plotting width	1240mm
Net weight / Gross weight	37/42kgs
Packing size	155*32*37cm & 77*30*15cm
Interface	Serial port & USB port
Language Format	DMPL/HPGL
Max. plotting speed	800mm/s
Max. cutting force	500g
Cutting Tool	Imported hardness alloy steel blade
Power supply	AC90V~AC240V
Operation Environment	Temperature: 5centigrade~35centigrade
Relative humidity:	(30%-50%)without condensation
colors	White color, grey color, black color

Features

Characteristic design, adjusting cutting force and plotting speed at any time.

European popular large screen high bright display, clearly to operate.

Real USB interface to connection computer also support hot-plug.

Serial and parallel port, large memory, quick off-line.

Domestic popular plotting language, supporting many popular kinds of software at home and abroad.

Unique double cutter position, double pressing strips
