

Microtec DCH-600

Digital combo heat press

OPIS

This digital combo heat press machine is a multipurpose swing-away heat press, which boasts all of the digital features of the state-of-the-art control system. It includes digital temperature, time, and a digital pressure/ height gauge, as well as programmable presets, user definable alarms and a host of other digital features.

The construction is a solid steel welded framework. However, the popular success of this digital combo lies in its instantly interchangeable system of heat platens and tables. It utilizes quick-change attachments for heat transferring images onto a surprisingly wide variety of materials.

The interchangeability of the digital combo is performed quickly and safely. If your product offering is going to reach beyond just flat and fabric items, it is the superior heat press machinery solution.

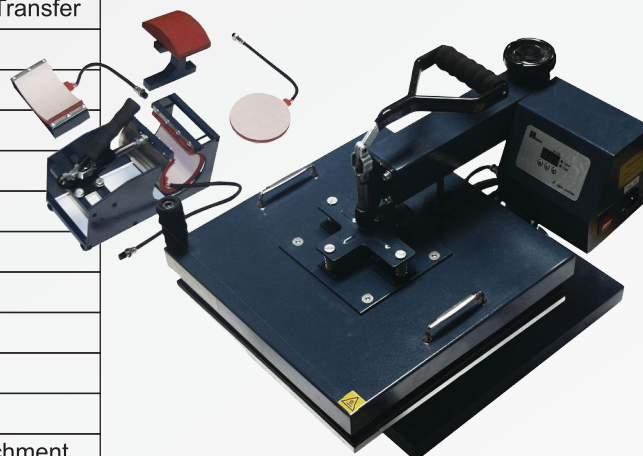

The mug attachment for this machine allows the imprinting of mugs one side at a time. With dye sublimation transfers, full wrapped images can be perfectly applied in multiple pressings.

The plate die platens feature quickly inter-changeable components for allowing the circular heating element to press inside ceramic plates. Also included is a template tray and pad for centering the plate.

Due to its swing-away design and wide adjustment range, this machine excels at handling extremely thick items such as plaques, tiles, woods, plastics, and other items that can not be pressed in conventional T-shirt presses.

SPECIFIKACIJA

Type:	Heat Press Machine, Heat Transfer
Plate Type:	Flatbed Printer
Color & Page:	Multicolor
Certification:	CE
Feature:	Multifunctional
Dimensions (L x W x H):	38 x 43 x 34cm
Voltage:	220V/ 110V
Power:	1200-1800W
Temperature range:	0 - 25°C
Color:	Dark Blue
Gross weight:	43kg
Optional attachments:	mug attachment, plate attachment

Heat Platen Test

Each Single Copper sheathed heating rod is tested before it is cast in an aluminum alloy or Mica Sheet. These heating rods are comparable to those found in industrial ovens that heat up quickly, work efficiently and last many years. With our industrial quality heat castings, you can get five years worry free warranty.
