

# HOVER Heat Press

Special designed for DTG Curing

## OPIS

The Max Hover Heat Press has all the features of Auto Open Machine with one unique difference: the upper platen hovers over the garment. This technology aids in the direct-to-garment ink curing process to ensure brighter colors and a stronger bond between ink and the garment. Can also be used for any type of traditional heat-applied graphics. Youtube: [https://www.youtube.com/watch?v=UAEgR6L\\_DC0](https://www.youtube.com/watch?v=UAEgR6L_DC0)

## SPECIFIKACIJA

|                      |                                       |
|----------------------|---------------------------------------|
| Product Name         | MAX-HOVER Auto Open Heat Press        |
| Working Mode         | Hover, Auto Release, Clamshell        |
| Controller           | GY-06 Digital Controller              |
| Mug Heater Size      | 6oz-10oz / 12oz / 17oz / 11oz-15oz    |
| Machine Pressure     | Adjustable                            |
| Maximum Temp         | 225C(437F)                            |
| Temperature Accuracy | +/-0.5%                               |
| Time Range           | 0-999 Seconds                         |
| Power                | 1750W/ 1800W                          |
| Voltage              | 110~120v/220~240v                     |
| Gross Weight         | 42kg\ 58kg                            |
| Machine size         | 74x43x49cm\ 76x44x49cm                |
| Packing Size         | 90x52x59cm\ 90x56x59cm                |
| Certification        | CE Approval                           |
| Guarantee            | Heaters 5 years, Whole machine 1 year |
